

This Form must be resigned every school year

Your student has a medical/religious exemption to vaccination and is not fully immunized. Although your student remains at risk for getting a vaccine preventable disease, IC 20-34-4 permits your student to attend school.

In the event of an outbreak of a vaccine preventable disease for which your student is not fully vaccinated, he/she may be excluded from school to protect his/her health and the health of all of our students and staff. It is important to understand that with some diseases such as measles, one infected child is an outbreak. The length of time your student will be kept out of school depends on the disease. Your student's exclusion may be as long as 3-4 weeks.

If your student is excluded from school for a vaccine preventable disease outbreak, he/she will also be excluded from all school sponsored activities, such as sporting events, dances, and graduation that occur within the exclusion period. The school will notify you when your student can return to school.

Acknowledgement of Consequences of Incomplete Vaccination

I understand that my student may be excluded from school in the event of an outbreak of a vaccine preventable disease.

I understand that school exclusion includes after-school activities, such as sporting events, dances, and graduation and that the school is not required to provide make-up work.

I understand that my student may be required to stay home for multiple weeks during an outbreak of a vaccine preventable disease for which he/she has not been vaccinated.

This Form must be resigned every school year
